アメリカ環境保護庁(Environmental Protection Agency: EPA)は新型肺炎コロナウイルスに殺菌作用効果のある製品を N リスト（SARS-CoV-2 に対する殺菌消毒剤）として公表しています。その中に「銀イオン」の項目があります。新型コロナウイルスに有効な理由として新型コロナウイルスよりも強力なノロウイルスやアデノウイルスを不活性するからということです。

The screenshot shows the EPA website's Pesticide Registration section. The main heading is "List N: Disinfectants for Use Against SARS-CoV-2 (COVID-19)". Below this, it states: "All products on this list meet EPA's criteria for use against SARS-CoV-2, the virus that causes COVID-19." There is a section titled "Finding a Product" which explains how to search by EPA registration number. On the right, there is a sidebar titled "View List N's information in our new tool" with a search interface.
